Re: Roadway Restoration Project, SBPG RD 2012-102
Public Works No. 20405

Dear Mr. Housey:

The purpose of this letter is to request for a time extension to the aforementioned project. Barriere requested final acceptance on February 24, 2016. Since this date, a supplemental punch list has been developed between St. Bernard Parish and BBEC. Barriere was not allowed to be present during the development of this list and requires time to asses and locate these items as the exact location of the items is unclear in some instances. The final supplemental punch list was issued to Barriere on May 23rd, 2016. We have worked with St. Bernard Parish and BBEC to understand the work items and their locations and now are able to mobilize and perform a portion of this work. We still need to continue the efforts of analyzing the list and ensuring the accuracy and understanding of each punch list item. Upon proper identification and agreement with entire punch list, we will mobilize forces to accomplish these items.
June 20th, 2016 was our first mobilization and we plan to have 20 of the outstanding 61 work orders fully completed within 30 calendar day, another 20 within 45 calendar days, and the final 21 within 60 calendar days of June 20th, 2016. This would put our final project completion date for August 19th, 2016. We have attached a schedule reflecting this anticipated progress as well. Please let me know if you require any additional information for process this time extension.

Respectfully,

Andrew Wilson

Subject: Substantial Completions

Johnny,

See below my list of streets that should be ready for substantial completions. I'm showing we've walked 78 streets, we have 4 more that are ready to be walked, and we still have work on 4 streets:

READY FOR WALKS:
W. Virtue #4
Lloyds
W. Urquhart
Delille

REMAINING WORK:
Douglas - Drive apron left to be poured
Celestine - Walks and drives
Center - Handicap ramp
Livaudais - Handicap ramp

Thanks,
Aaron
